

The bar graph below shows the percentage of all tickets to which operators have responded to the positive response system in compliance with state law, without regard to timeliness. The pie chart to the right shows the percentage of tickets to which operators have responded using an IOC status code within the time frame established by state law.

### POSITIVE RESPONSE COMPLIANCE

ITIC, ITIC Lite, and ITIC Mobile activity all continue to grow, and make up a greater percentage of incoming locates. Phone In activity will continue to make up less of the total as more IOC users make the change to on-line ticket entry.

### MONTHLY ITIC ACTIVITY

ITIC    PHONE IN    ITIC LITE    ITIC MOBILE

### ITIC ACTIVITY Y-T-D

The number of tickets received through ITIC is nearly 85% YTD this month.

### ITIC VS. PHONE IN

This chart tracks ITIC usage through the last few years.

### COMPARATIVE ITIC VOLUME

Total current month number of incoming phone calls is lower when compared with totals received in previous years.

### TOTAL INCOMING CALLS Y-T-D

### TOTAL INCOMING CALLS

The January 2019 abandonment rate was the result of a series of prank calls received by the center throughout the month. Once we blocked the caller's phone number, the calls stopped, and you can see that the abandonment rate returned to near-historical levels. The higher abandonment rates occur as a result of message that is being played for all callers encouraging them to use ITIC. Those that hang up after hearing the message count as abandoned calls. Due to the ongoing increase in ITIC usage, we assume many people are following the message's suggestion.

### CALLS ABANDONED

The average speed to answer is slightly higher than last year and consistent with the trend experienced in preceding years.

### AVERAGE SPEED TO ANSWER

The chart below reflects the average speed (ASA) to answer during the after hours period. The chart to the right shows the breakdown of after-hours tickets between phone and ITIC.
