

The bar graph below shows the percentage of all tickets to which operators have responded to the positive response system in compliance with state law, without regard to timeliness. The pie chart to the right shows the percentage of tickets to which operators have responded using an IOC status code within the time frame established by state law.

POSITIVE RESPONSE COMPLIANCE

ITIC, ITIC Lite, and ITIC Mobile activity all continue to grow, and make up a greater percentage of incoming locates. Phone In activity will continue to make up a smaller portion of the total as more IOC users make the change to on-line ticket entry. Total incoming volume is now ahead of last year's levels.

MTD homeowner volume is slightly lower and YTD homeowner ticket volume nearly the same as in 2025.

HOMEOWNER TICKETS Y-T-D

HOMEOWNER TICKETS APR

This chart shows the number of times that the same location of work has been found on repeated tickets. There was an interest in analyzing the data to see how many emergencies were actually repeated tickets. The data seems to indicate that the number of "repeated" tickets is a significant part of the emergency total.

COMPLIANT TICKET BREAKDOWN

Iowa One Call instituted the new Ticket Talk feature on February 24th, 2025 at 8am.

The date filter in the report is based on when the ticket was created, not when the messages were sent. For example, if Ticket 3 was created on March 30 but the conversations happened in April, those April conversations will still show up in the March report because the ticket itself was created in March. The same goes if the conversation continues into May.

In short, the report pulls in all conversation activity tied to tickets created within the date range you enter.
